STATINTL

STATINTL

Experience with the [redacted] operations shows that when we know in advance that a sensitive set of files is of interest to HSC, we should have knowledgeable people do an initial screening of the files. They should pull out for checking the following categories:

- 1) 3rd Agency material
- 2) Messages to and from Heads of State, including material that paraphrases or quotes Heads of State
- 3) Advice to the President and or Kissinger in his NSC capacity
- 4) 40 Committee material
- 5) Documents discussing policy options which were not implemented
- 6) Unofficial, informal, and internal CIA working papers and notes.
